

Commission for Aviation Regulation

Customer Charter

Our Role

The Commission for Aviation Regulation was established on 27th February 2001 under the Aviation Regulation Act, 2001. The Commission's role covers three broad areas: Aviation charges and oversight of the runway slot regime; Licensing and Consumer Protection. Further information on nature of each of these roles is available on the Commission's website: www.aviationreg.ie.

Our Commitment to Members of the General Public

The Commission for Aviation Regulation is committed to delivering the highest possible quality of service to members of the general public. This Charter sets out the standards of service you can expect to receive from the Commission for Aviation Regulation.

Contacting us by written correspondence (including fax and e-mails)

If you write to us:

- We will acknowledge all written correspondence within 3 working days.

We will ensure that all our written replies include a contact name, telephone number, fax number and e-mail address.

In respect of certain large scale consumer protection events (e.g. radar malfunction at an airport, prolonged closure of airspace or a significant Travel Trade collapse or multiple collapses) the Commission can experience significant volumes of both written and oral communications from the public. While the Commission will generally strive to achieve the standards set out in this document, such consumer protection events will require the Commission to treat correspondence /communications relating to such events separately to the general standards as set out here. In that scenario longer timeframes for replying to communications will apply and in those situations the Commission will, if appropriate, use its best endeavours to communicate the expected response

timeframes in a transparent and timely manner, usually through the Commission's website: www.aviationreg.ie.
