Commission initiates High Court proceedings against Aer Rianta

"Today, the Commission for Aviation Regulation took steps to commence High Court proceedings against Aer Rianta cpt. The proceedings seek an order compelling Aer Rianta to comply in full and unconditionally with a statutory request for information dated 2nd March 2001 served by the Commission on Aer Rianta. The information is required by the Commission to enable it to carry out its statutory function of making a determination on airport charges within a six-month period of its establishment, 27th February 2001. The Commission regrets that it has found it necessary to take such action. However it had no option bearing in mind the time constraints under which it must operate and given the fact that Aer Rianta is in possession of a significant amount of documentation required by the Commission to enable it to carry out its function."

26 March, 2001
