**RE: Commission Paper CN3/2022 26 April 2022, Draft Decision on Winter 2022
Coordination Parameters at Dublin Airport**

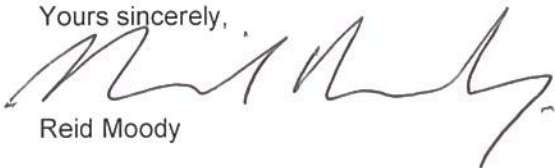

Dear Adrian,

I refer to the above consultation.

At the Dublin Airport Coordination Committee meeting on 05 April 2022, the Coordination Committee discussed CAR's letter to the committee dated 28 March 2022 (*Winter 2022 Runway Capacity Limits at Dublin Airport*) which proposed that there should be no change to the capacity limits for Winter 2022 as Condition 5 of the planning permission for the North Runway is relevant to the Summer season and therefore will not affect the level of traffic in Winter 2022. This proposal was supported by the entire Coordination Committee unopposed.

Aer Lingus welcomes CAR's draft decision to support the view of the Coordination Committee and roll forward the current capacity limits into Winter 2022. Aer Lingus remains of the view that this is a sensible approach.

Yours sincerely,

Reid Moody

Chief Strategy and Planning Officer
